Re: Patent Application for Schepers - 09/868,744
Genetic Modification of *Compositae*

Dear Sir,

We filed the above -identified national application on June 20, 2001. In this filing, which was based on a PCT application, our office submitted an informal copy of the application. We are uncertain from our photocopy of this application which pages were sent into the office. It appears that the third figure of the application may not have been included in the package of material. Regardless of whether the third figure was or was not provided on June 20, we would like to request that the application submitted to the USPTO by the International Bureau be used for the purposes of further examination of this application. When the International Bureau copy is used, our amendments (enclosed herein) related to the sequence listing should be correctly formatted and page numbered. Thank you for your attention to this matter.

Please do not hesitate to contact me if you have any questions.

Sincerely,

Dana Rewoldt
